GETTING TO THE ROOT CAUSE

MISSION

The ROOT Brands is a nutritional supplement company founded on improving people's understanding of how toxins, heavy metals and chemicals disrupt biological processes in the body.

Detoxing using natural methods can target the underlying ROOT cause of many illnesses.

PRODUCT INFORMATION

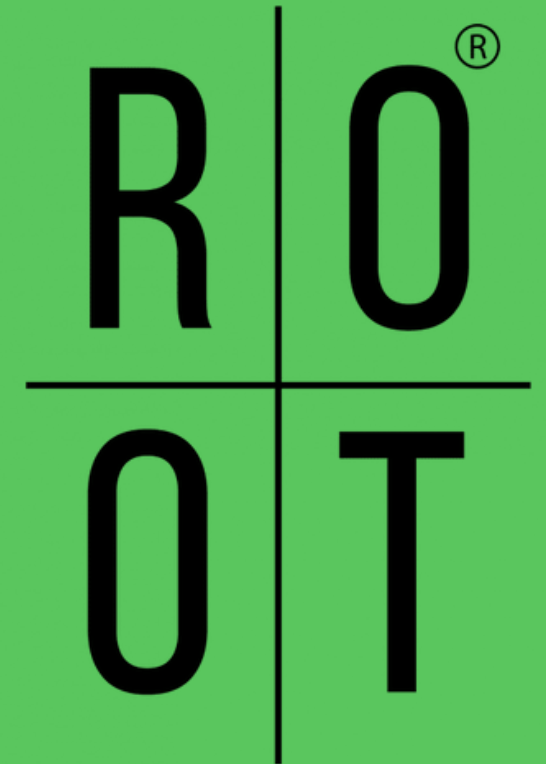

The foundational product is Clean Slate, which helps eradicate thousands of environmental toxins from the body, using bioavailable silica.

The full comprehensive detox is The Root Trinity Pack : Clean Slate, Zero-In & Restore.

Immune support is provided by ReLive Greens, Natural Barrier Support, Immune Defence Shield, Clean Spirits (for liver health + alcohol metabolism) & Give Me Back My Youth.

Disclaimer: Information is for educational purposes, we do not give any medical advice or make any claims. Always check with your health professional for information about diagnosis or treatment. Products are not intended to diagnose, treat, cure or prevent disease.

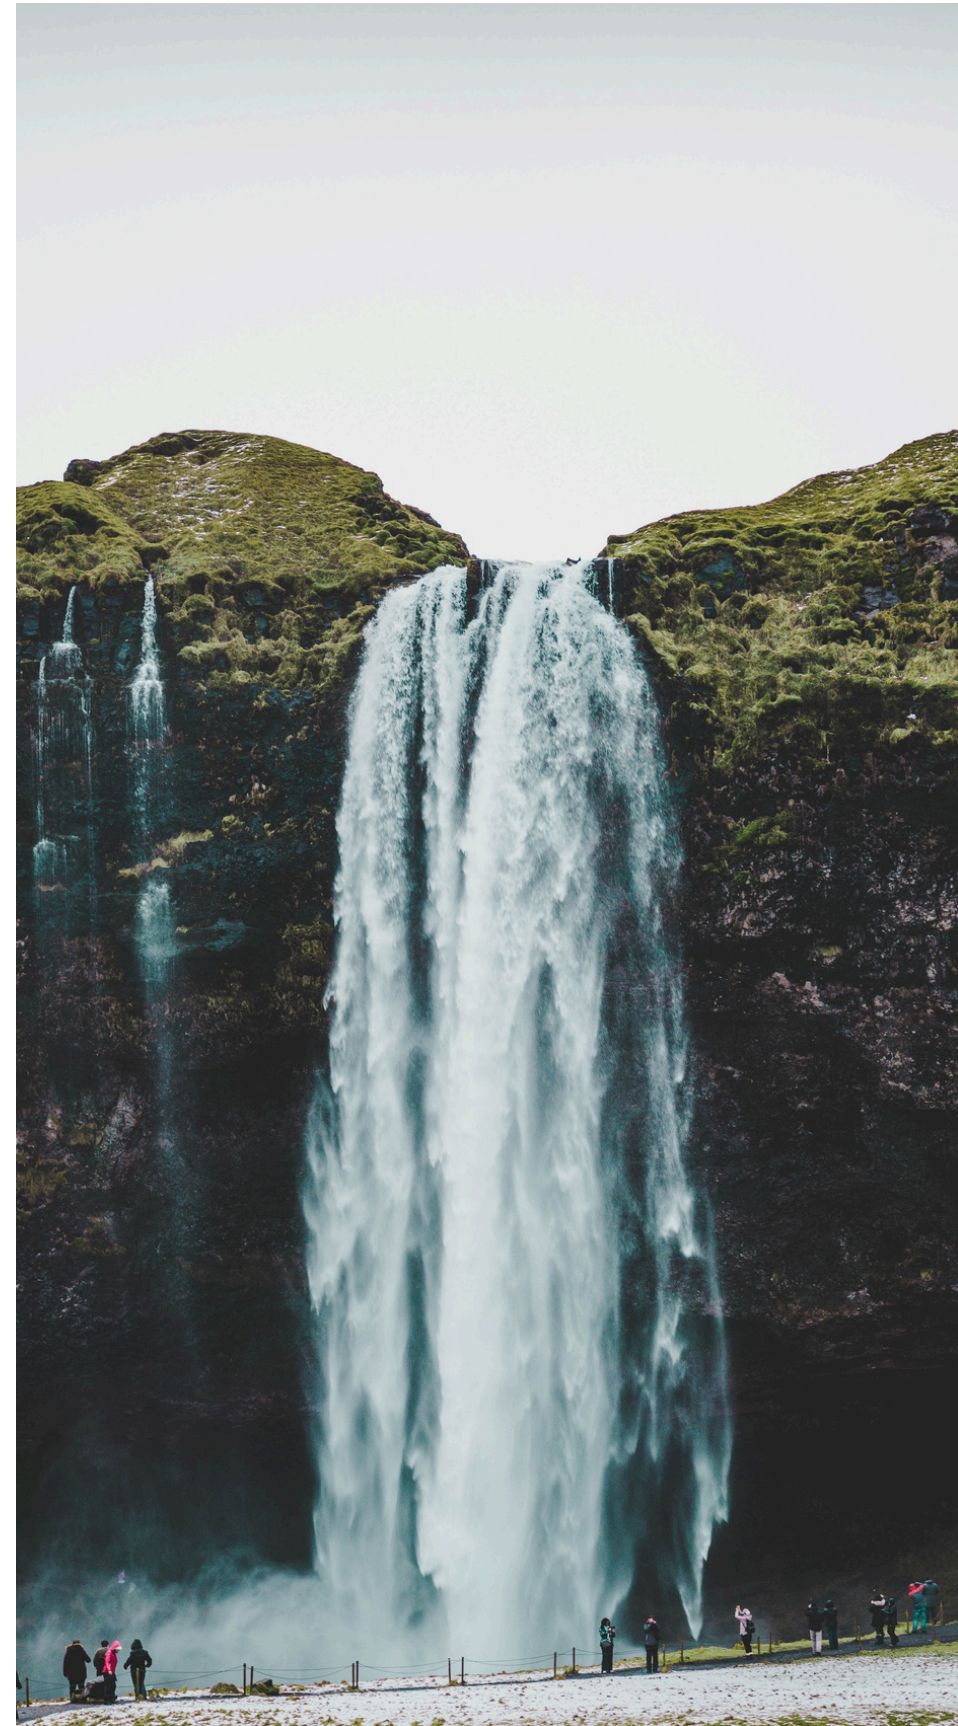

WHY DETOX?

We are constantly exposed to toxins, heavy metals and environmental pollutants, starting in the mother's womb.

As we age and absorb more chemicals from pollution, cosmetics, detergents, amalgam fillings, medications, food, water and traffic - they contribute to systemic imbalances, which form the underlying basis for many physical ailments.

Common maladies include neurological illnesses, memory issues, developmental disorders, psychological imbalances, sleep issues, hormonal imbalances and more.

THE ULTIMATE HEAVY METAL DETOX

Clean Slate is a powerful natural detoxifier, containing zeolite on a microscopic scale to increase absorption. This is a natural mineral formed by the chemical reaction between volcanic ash and seawater.

Due to the crystalline structure, zeolites are porous and negatively charged, allowing for the selective removal of toxins - especially heavy metals - which are positively charged. The metals are captured in a grid of tetrahedrons and passed through the body via the excretory system.

When removing toxins from cellular binding sites, it is important to replenish the body. Therefore, 75 trace minerals have been added from the purest source and Vitamin C for immunity, stability and cell permeability.

KEY DETOX SUPPLEMENT

Many start with or stick only with Root Clean Slate and derive great results, contributing testimony to its effect.

Dosage: 1-10 drops daily, to be taken under the tongue or in water.
Ask the Root Ambassador for a detailed Dosage Guide document.

Ingredients: Bioavailable Silica (Orthosilicic Acid) derived from zeolite (Clinoptilolite), Vit C, Trace Minerals from the Great Salt Lakes.

A 30ML BOTTLE LASTS BETWEEN 2-5 MONTHS.

LINKS TO SCIENTIFIC STUDIES

Numerous [scientific studies](#) attest to the selective nature of the zeolite clinoptilolite's ability to remove toxins.

In a clinical trial on 33 volunteers, zeolite enhanced the elimination of aluminum, arsenic, lead, mercury, and other heavy metals. People who took liquid zeolite (30 drops a day) had significantly higher levels of these metals in their urine samples. Lab analysis confirmed that zeolite wasn't contaminated, attributing the results to heavy metal detox [\[link\]](#).

In studies on mice, zeolite enabled lead elimination and protected the brain from oxidative damage caused by this heavy metal. It reduced the levels of lead in organs by up to 91% [\[link, link\]](#).

A [clinical study](#) evaluated human subjects and found statistically significant improvements in blood arsenic levels after twelve weeks of treatment with zeolite.

In rats, clinoptilolite stimulated aluminium detox and stopped it from reaching the blood [\[link\]](#).

Cell studies have confirmed the ability of zeolite to bind and remove heavy metals such as lead, arsenic, and mercury [\[link, link, link\]](#).

Brain cells are particularly sensitive to heavy metal poisoning. Heavy metals can damage neurons and trigger anxiety, depression, anger and attention problems [\[link, link, link\]](#).

Clinoptilolite detoxed rats from organophosphates (nerve poisons). The fact that some pesticides belong to this group reveals the importance of zeolite detox properties [\[link, link\]](#).

In a cell study, clinoptilolite reversed the liver-damaging effects of adriamycin, an anti-cancer drug. It suppressed inflammatory proteins (NF-κB, TNF-alpha, and IL-1B) and prevented cell death [\[link\]](#).

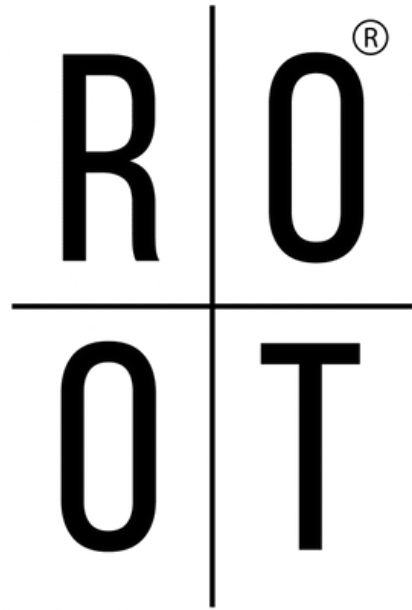

In cell studies, zeolite stopped the growth of the HSV-1 (Herpes simplex) virus, which causes cold sores, demonstrating it's anti-viral properties [\[link\]](#).

One cell study verified the ability of zeolite to bind histamine and thus relieve inflammation and allergic reactions [\[link\]](#).

In clinical trials, zeolite caused no significant side effects [\[link, link, link, link, link\]](#).

These are just some of the scientific papers available, they are too numerous to list them here in their entirety.

ZERO-IN

PREMIUM LASER-SHARP MENTAL FOCUS

COGNITIVE FUNCTION: Through stimulating and improving the delivery of oxygen to cells, increases attention span, improves reaction time and concentration.

NATURAL NOOTROPIC: Powerful blend of adaptogens and amino acids stimulates the gut to produce the neurotransmitters dopamine and serotonin, improving mood, focus and clarity and raising the natural “feel good factor”. Relax and feel positive.

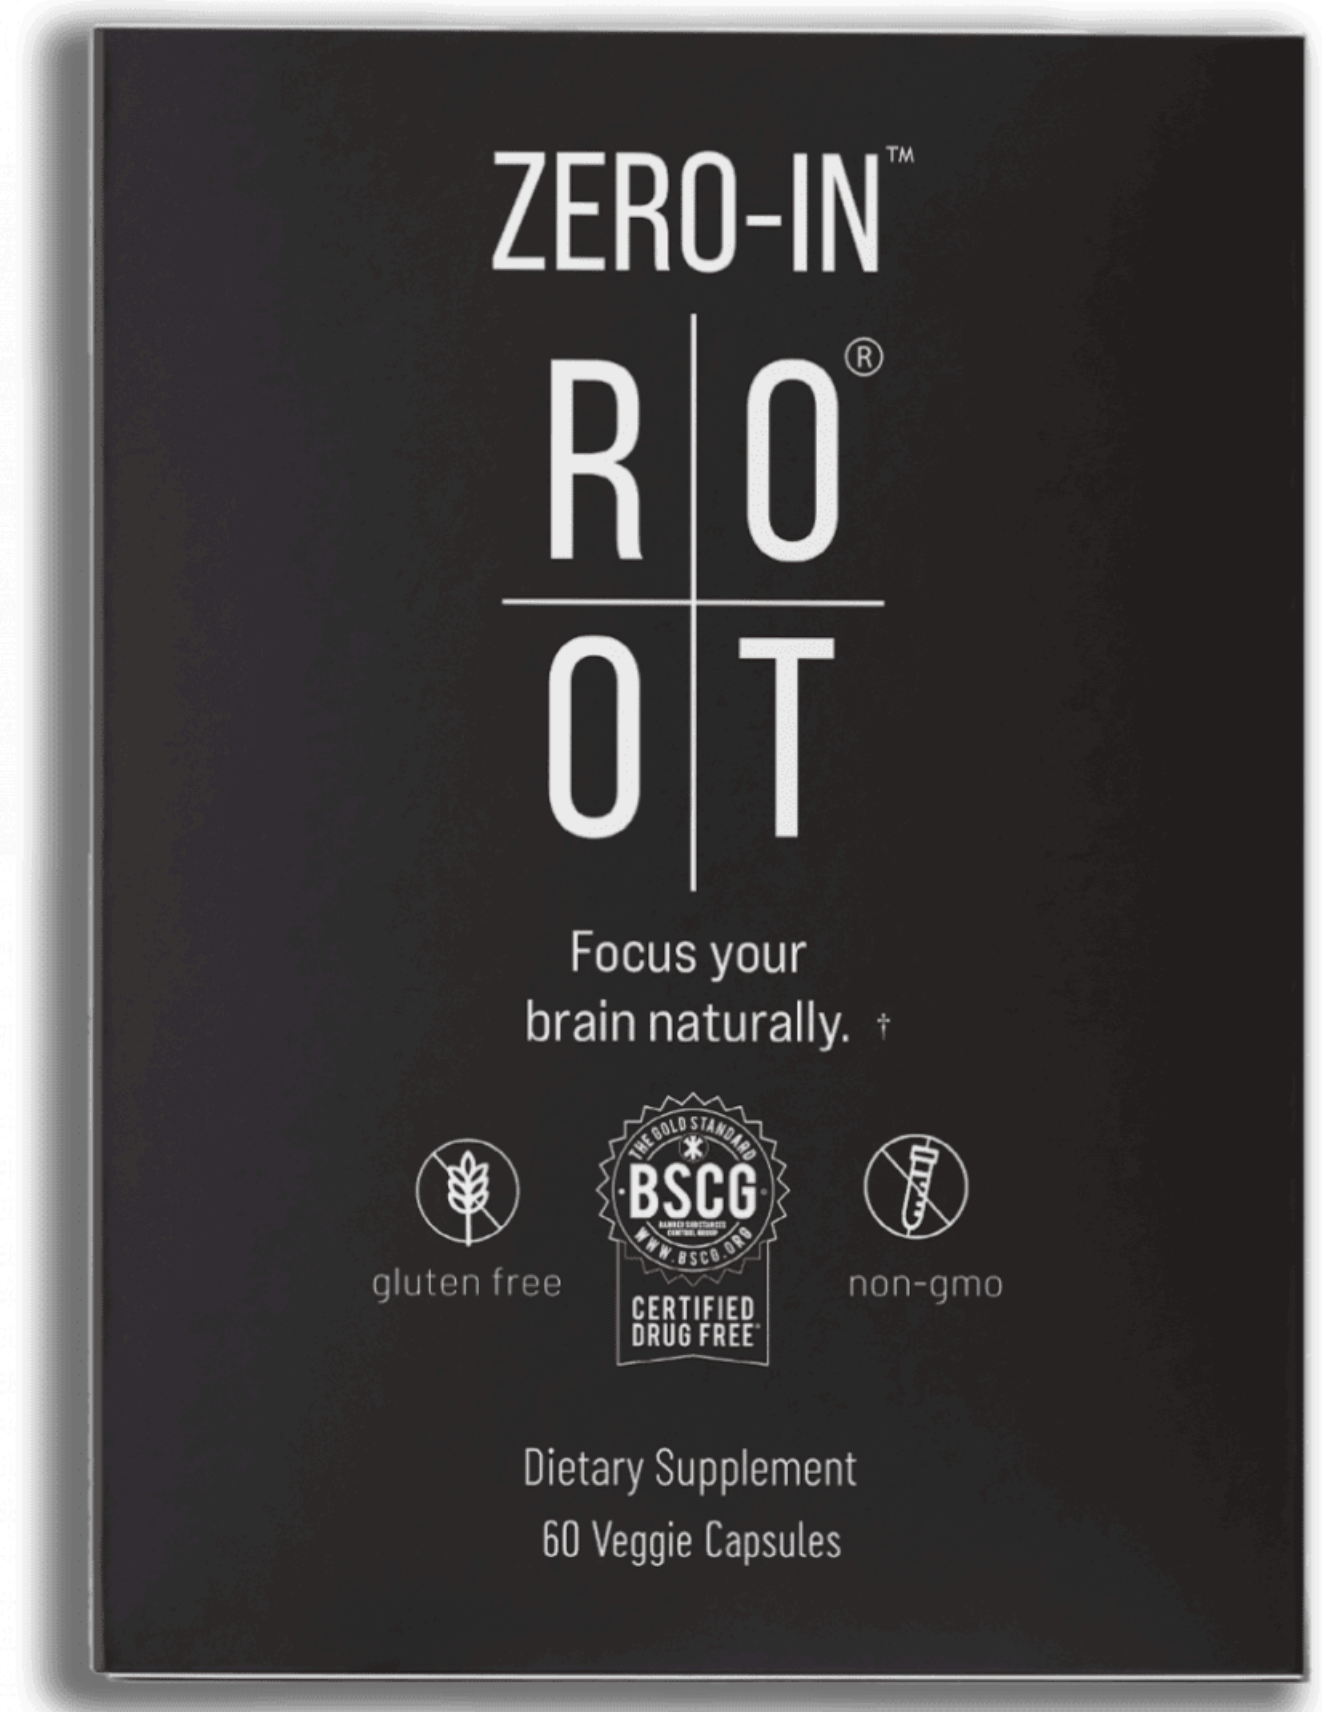

Popular among those with ADHD, menopausal women, overworked professionals, sports athletes who want to boost their stamina and elderly patients with dementia.

Works in perfect synergy with Clean Slate and Restore for optimum performance.

Ingredients: Turmeric Root Extract, Velvet Bean Seed, Pine Bark Extract, Anhydrous Caffeine, L-Theanine, N-acetyl L-Tyrosine, Vitamin D3

Now I’m literally like a new person, the migraines stopped after just a few days of taking Clean Slate. I’ve been so much more happier and positive and I have loads of energy. I’m over the moon.”

PAINFUL PERIODS

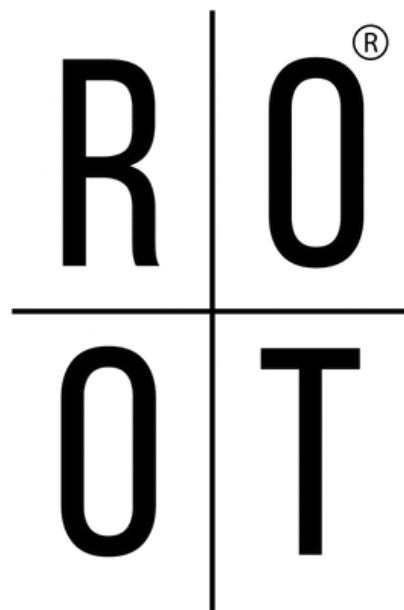

“I just wanted to share a testimonial from my 17-year-old daughter using Root products. For several years my daughter has experienced very painful periods to the point she was bed ridden and on a lot of pain relief. She took so much paracetamol over the course of a year, that it ended up disregulating her gut. She also had continuous urinary tract infections, and horrible stomach cramps. She asked me to take her to a specialist because she was convinced something was wrong. I said I would if the Root products did not help her.

As soon as we started on Clean Slate, last year, her urinary tract infections completely cleared. She’s not had one since. Over the course of 6 months, her periods are now pain free. She messaged me today and said my periods are not painful that I need medication and they are much lighter too.

We have switched her to a completely gluten free diet and are using non toxic eco menstrual products which I feel have helped too. But it’s been the Restore and Relive Greens that I believe have also benefited her so much.

Zero In has helped change her mindset, from an insecure young woman to confident and full of life, energy and purpose. I truly believe her frequency has shifted with Zero in!!!

I just wanted to share in case others are having the same challenges. It was very debilitating for her and she now has a new lease on life. She feels empowered!

WEIGHT LOSS, PSORIASIS & JOINT PAIN

RESULT

Lost 3 stone in weight (42 pounds), psoriasis cleared up, hip pain resolved, better sleep, more energy, less brain fog, improved eyesight

"I was getting fed of feeling bloated and tired all the time. Within a week of taking Clean Slate I was sleeping better and had much more energy, I left my job in IT which I didn't enjoy and went back to my old craft of floor laying. The weight loss was a massive bonus and the psoriasis clearing up was a real surprise as I've had it for so long."

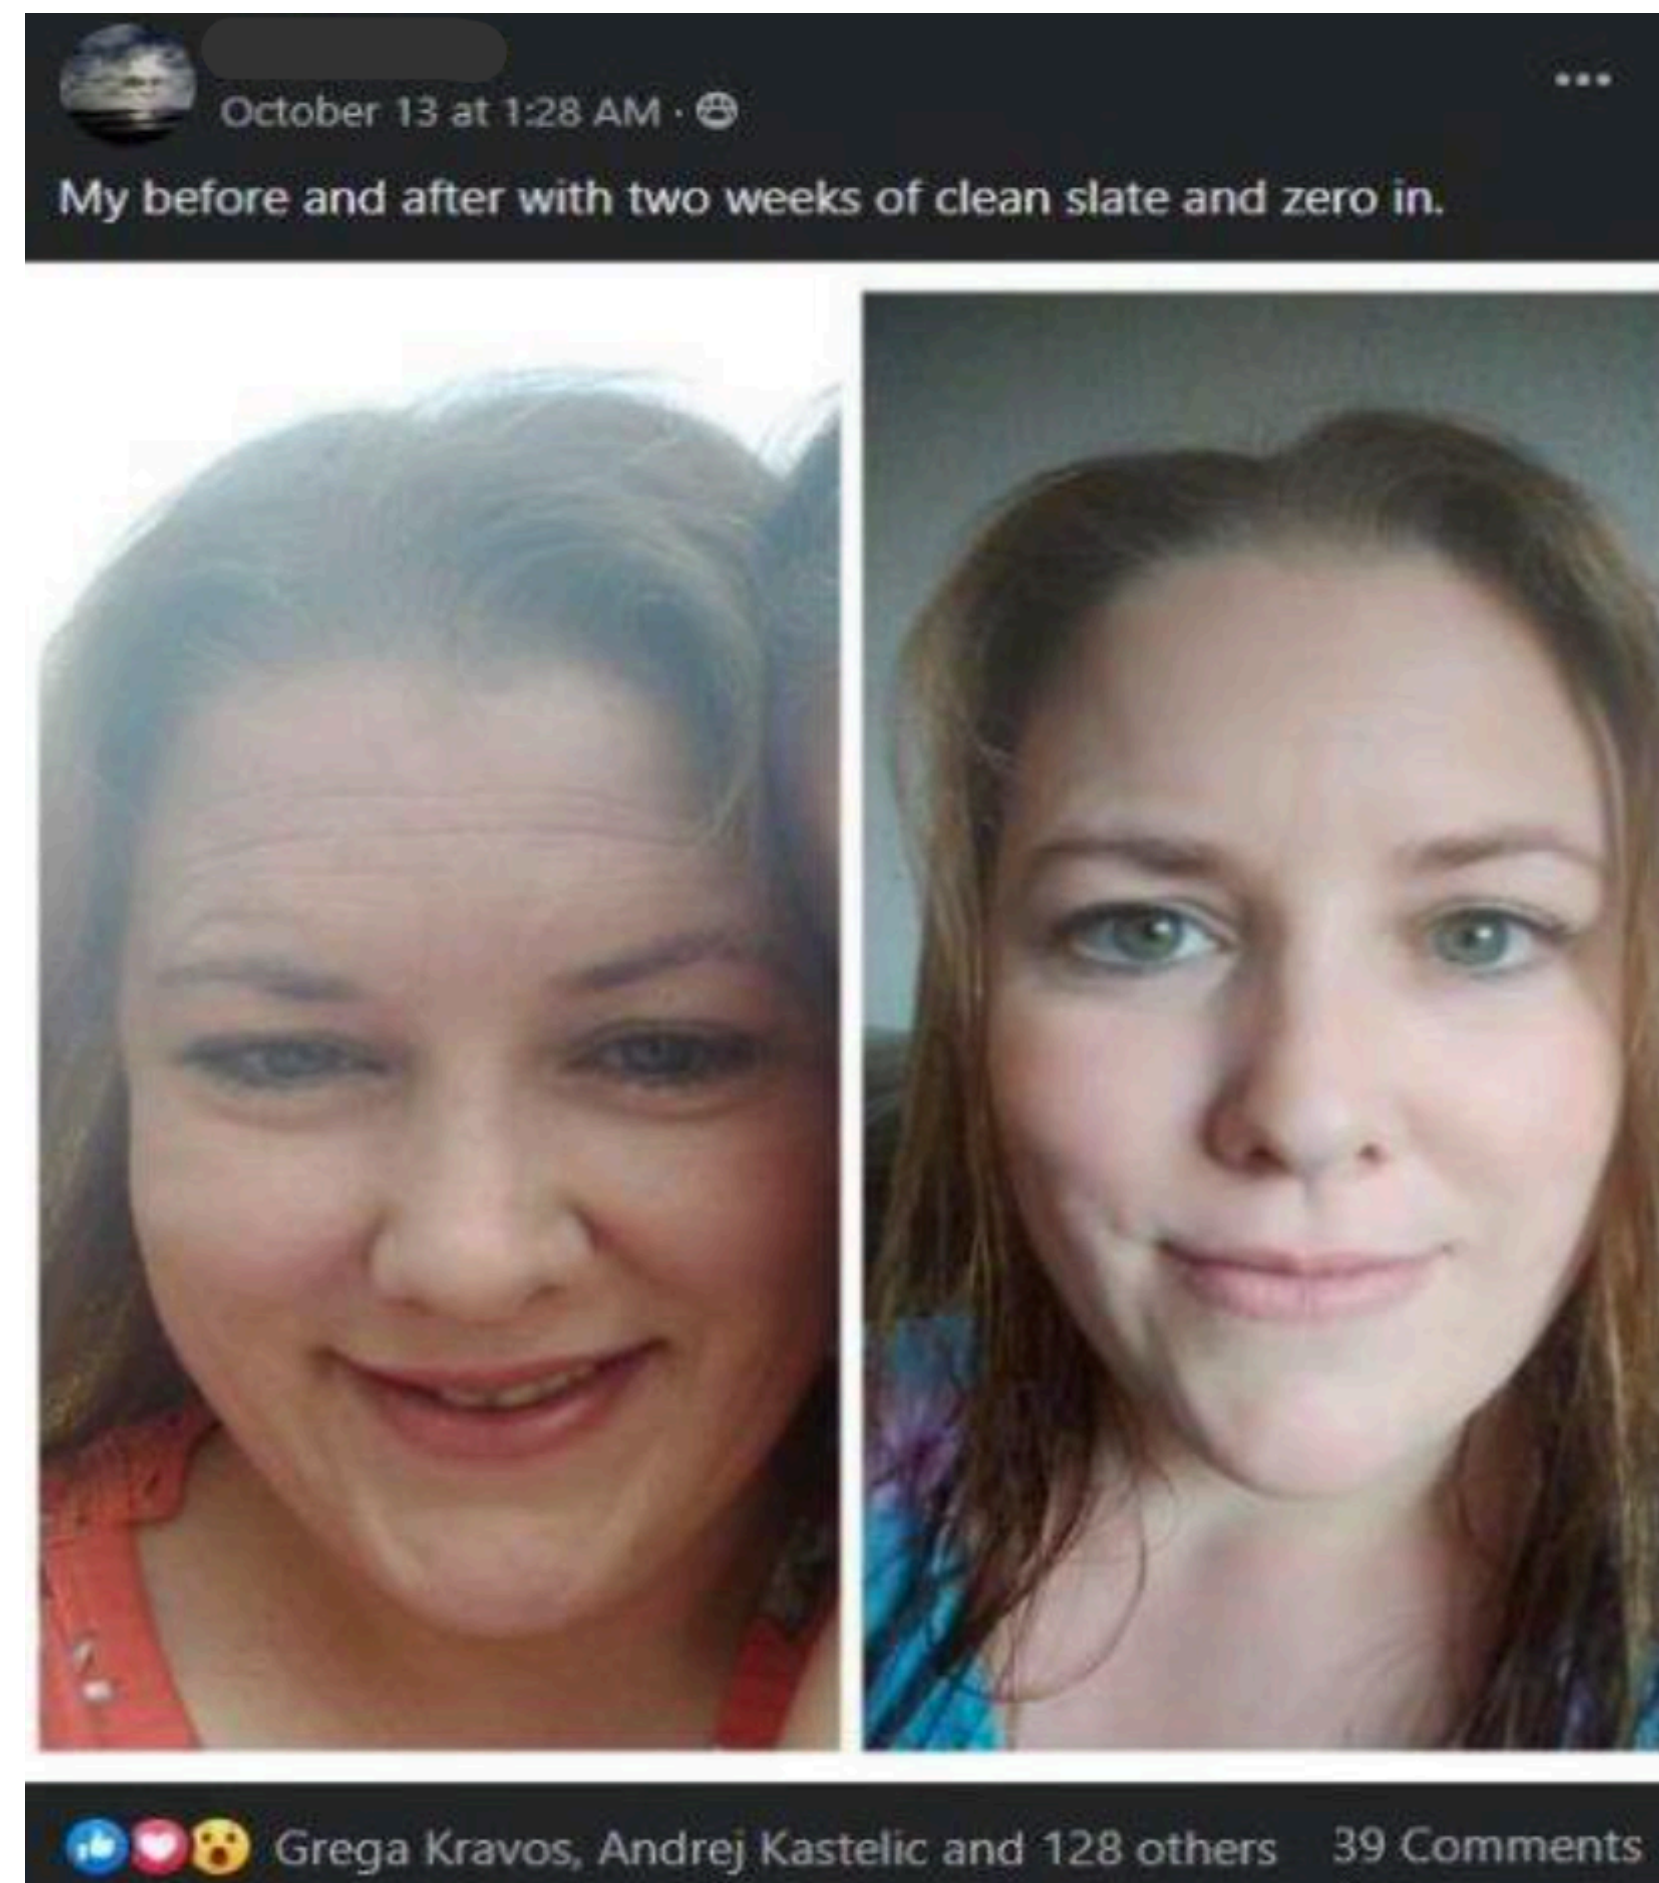

GENERAL HEALTH

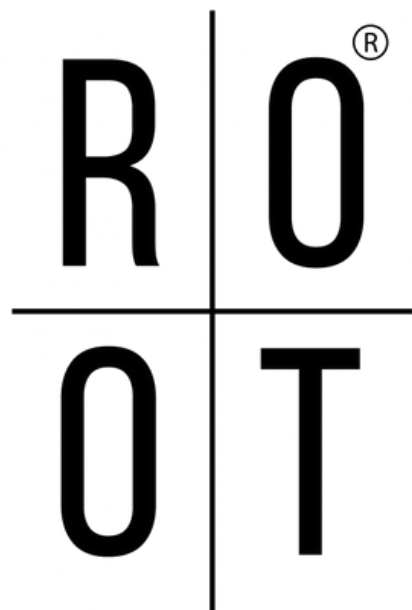

Ann: Stubborn weight gain, bloating, brain fog and cravings

PROTOCOL

Visible results after 2 weeks on Clean Slate & Zero-In

“I’m feeling great! Inflammation is gone, brain fog is gone! I’m craving clean foods. I’m dreaming again and remembering them.”

FYBROMYALGIA JOURNEY

"I would like to share the experience of my friend who has Fibromyalgia, she has been using both Clean Slate and Zero In. She started with 5 drops of Clean Slate. Even after a few hours her thigh muscle started to hurt (she used to have dystrophy).

Because of the severe pain, I advised her to increase the dose the next day. She took 10 drops and after 7 minutes we talked on the phone the pain disappeared. The following days she continued the dose with 3 drops twice a day. Headaches have disappeared after a week. She slowly increased her dose to 7 drops. Some symptoms such as dizziness, nausea, pain were still noticeable, reducing the dose and took 3 drops twice a day for some days. It took about three weeks for symptoms to disappear. Now after two months she's taking 8-9 drops and a capsule of Zero every day.

In the first month, her Fibromyalgia pain reduced by 80%. The changes are obvious. She has way more energy. Daily life is easier to manage, which was more challenging before. For example if she went walking she would have to lay down for the next two days due to pain. Now she can run a few miles a day and has lots of energy. Her mental health has also improved.

She used to be very sensitive to weather, so if it was bad rainy weather she didn't do well. Now the rain doesn't bother her at all. There's also a clarity in her voice that I haven't heard in years. Yesterday she showed me her dark eye circles and swelling around her eyes are also disappearing.

What we have learned is that the dosage should be adjusted to fit your daily response. If symptoms are severe, you reduce the dose for several days and then later increase it again. But overall she is very happy and grateful for this experience because after many years she can now live painless, which of course has increased her quality of life substantially."

****ROOT OUTCOME****

Hello Arman. I would like to share my experience with Root!

Have had some kind of anxiety/panic disorder for 30 years. Whenever I went on vacation or to restaurant for dinner I got extreme nausea! My sister also had the same problem! We have both been taking CS and Restore for about 2 mon. Since 3 weeks the disorder is completely gone. With me and also with my sister! We have tested it several times. Were on vacation and several times in the restaurant. No trace of nausea anymore 🥳.

Never thought that Root helps so quickly in this area too!

May you please post anonymously 🙏🙏

I had it for 30 yrs. Since my approx 11 . Year of life and my sister 10 years. She is only 23 years old 😊

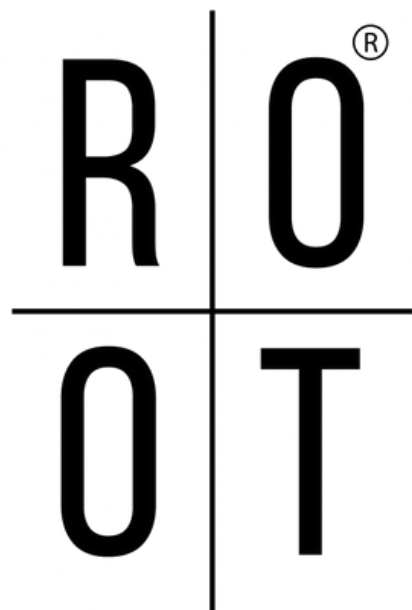

Yea...I am a physician assistant and alternative practitioner myself. Have tried a lot...but have not found anything that would eliminate the disorder 🙏

I have also found that clean-slate even helps you not get hangovers after drinking alcohol! You are fit the next day as if nothing had happened!

I hate weight loss as a side affect but people manage I guess:

****Root Story****

Hey Lourdes here is my testimonial on Clean Slate:

I have been on Clean Slate for 3 months now and here is what I have noticed. The first thing was I had so much energy, like the kind of energy I had in my youth. The kind you see at the school playgrounds. Before taking Clean Slate is important to note that I was suffering from severe anemia and chronic inflammation that prompted arthritis in my hands and auto-immune type symptoms including chronic urticaria that I have suffered now for 2 1/2 years post Covid. Over the past few years I have had chronic fatigue and the first thing that boosted was my energy. After about 2 weeks on it, I noticed this get up-and-go energy. About four to five weeks in, although I was feeling more alive, the physical sign was that the inflammation around my finger joints, the nodes were going down probably about by 30%. About 2 1/2 months into it, I did notice that I was becoming very high strung and could not sleep so I decided to stop taking it at night for a bit and that helped. Yesterday, I noticed my fingers, now 3 months in and all the inflammation in my body is pretty much down and the inflammation in my hands and fingers are completely gone. Mostly all the nodes are down and there has been a strong reduction in two of my stubborn nodes. I also lost eight pounds without trying which I could not lose before even with diet and exercise. Can I say I am pleased? Beyond. Proof is in the pudding and I am starting to feel great.

ALCOHOL / FATTY LIVER

PROTOCOL CLEAN SPIRITS

Clayton Thomas

7 January · 🌐

****ROOT OUTCOME****

Here's my progress so far from Clean Spirits:

It's been 13 days and I feel incredible! I've been diagnosed with Cholestasis in the past and then NAFLD (fatty liver) I wasn't able to drink alcohol without experiencing backaches, liver pain, acne, swelling, and inflammation. I also couldn't process any artificial sugar! It was horrible.

Now I got to enjoy 2 bottles of wine during the holidays 🍷 and splurge on candy and junk food without any symptoms. No acne, no inflammation, no swelling, or any pains! It was like a dream come true for me.

I couldn't even enjoy a Dr. Pepper without having some type of reaction... but now? I've been able to process these sugars. It's been 2 years since I've had a Dr. Pepper and I got to have one with a meal 🍷💕

Clean Spirits also has an emotional detox with it, I've released anger and anxiety to where I feel much more grounded and clear headed. It did make me feel sleepy so I'd rest and listen to my body. If you're familiar with TCM then you understand the emotional connection to the liver. Our cells hold emotions/energy, you may process something psychologically or spiritually but the body needs to release these emotions as well.

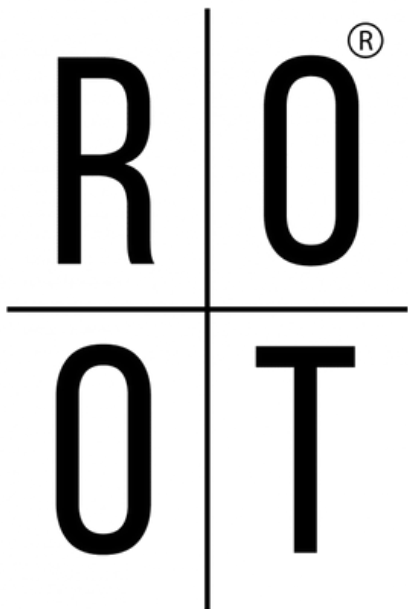

The body tells our story and while we may forge ahead... we still have to remember to emotionally detox and let our bodies release the energy blocks. ✨

AUTISM / DEVELOPMENTAL DELAYS

PROTOCOL

Clean Slate, starting with 1 - 10 drops morning and evening. Zero-In capsules added from week 3.

Our Autism Journey Non-verbal no longer!

Hi! My son Michael turned 14 in January 2021. He had been completely non verbal since he was about 15 months old.

Stephanie reached out to me and invited me to a zoom call, to discuss a heavy metals detox product (Clean Slate). I was impressed by everything I heard on the call, so I gave it a try.

Within 10 days my son was sleeping through the night (something he had never done). He was taking naps during the day too, on some days.

By the end of the 3rd week, he started mumbling consonants : the first ones I noticed were g, b and m. With some practice, he could say his name, (Michael), Koko, come, go, about half of the letters of the alphabet.

With colours, numbers and letters of the alphabet, it was obvious that he had been learning things all these years, but just couldn't express himself.

We are about 3 months in with Clean Slate now, his skin is clear (he had some recurring patches), he is calm and confident and is gaining new words.

We are so happy about the progress he is making and sooooo excited for the future!!!

Spot the differences. Left before Cleanslate and right 4 months later.

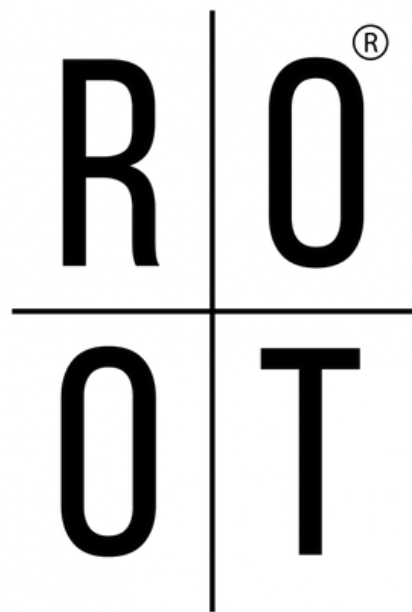

And with zero added, he suddenly learns to cash register at Brownies and Downies and gets hours of extension.

From an autistic boy he turned into a happy young man. He can concentrate, talk, say what he wants, improve me 🤪 (real Haarlem mosquito zifter).

He doesn't want the Restore (yet) but curious what that can bring him

DETOXING CHILDREN - DELAYED SPEECH 🌱

"My daughter had delayed speech at 20 months old.

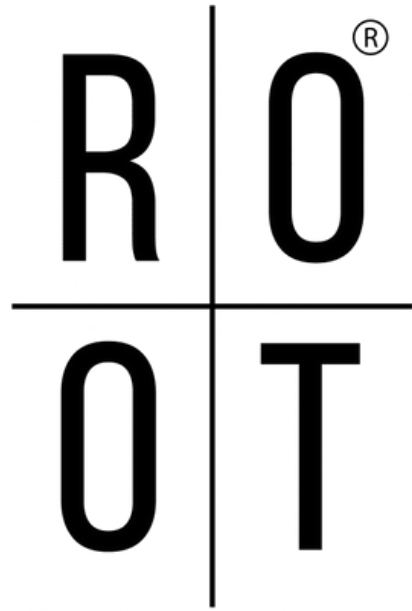

Months ago she would say a few words then regressed. I didn't think too much about it for a while until she said a few more again and put two and two together that after her last visit at pediatrician, she regressed again. She's very smart and you can tell she's frustrated with her difficulty to communicate.

... I decided it was time for a heavy metal detox before she started speech therapy.

It's been 5 days, and she's already copying us, saying words on her own, and trying to learn new words and sounds! This just goes to show how many toxins are within us, even from a young age and impacting our lives and health. Can't wait to see the continued changes in their entirety."

Lets talk faces....

As a teenager I was pretty blessed. I hardly had any spots and sailed my teenages years. I hit my twenties and all hell broke loose. Since then until about 2 years ago I have had spots on and off constantly. Sun helps but on the whole I was always covering something up with foundation or concealer. I felt a bit concious when I went out sans makeup and had many many scars as I'm a picker! I'm not gonna lie, I picked until it bled or I had made a real mess.

During this time I've spent a fortune on face products. I've used everything! Had regular facials you name it, the lot. Still spots!!

A few years ago I really started to make the connection with food and my internals and my skin. yes I know it was obvious yet I didn't connect that dot. In my defence practically none of the people I tlaked to about my skin did either.

So I started to look at food and try it out. I cut certain things out and saw an imprpovment. I then address my hormones and that helped massively too. The thing was I was left with lots of scars and sun scars. I am a child of the 70's and 80's, sunburn was part of life back then. Parents didn't plaster their kids in factor 30 at the slightest peek of sun. So I had much damage to my skin.

In July last year I started to try another product from Root, it's call Restore. Now it was created to help restore the microbiome in the bowel and help the body regenerate. When it came out they said try putting it on your face too. It makes your skin feel like you have had a facial. There was a warning.....as it has alot of tumeric in it beaware that it makes you a tad yellow and will go on your pillow. My feeling was this, I can deal with a bit of staining if it helps my skin!

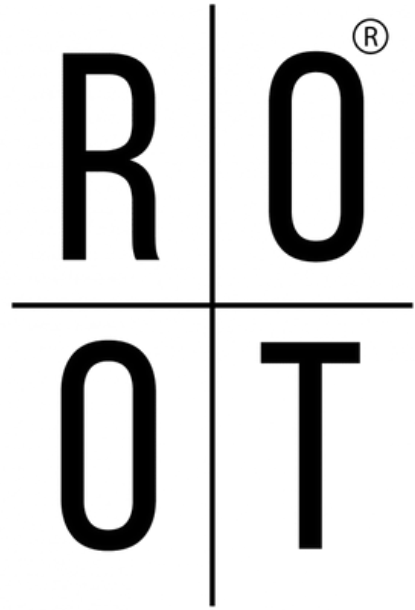

So roll on 7 months of using it on my face about 2-3 times a week. Sometimes more and check out the results below. I have macde a few more changes to my eating since I started using it and I have done a detox twice. That said look at my skin, all the dark marks and scaring have gone, my complexion is the best it's been in years and my wrinkles and lines are reducing continually. I also noticed last week that my grey hair is getting less. I do colour my hair, and I am not ready to be grey haha. I'm now thinking that it's going to start going the other way.

I do like to look good and I do like to think I look younger than I am. I'm not into botox and all that jazz, I really dislike needles and honestly injecting poison into my face really isn't my vibe. So Restore is now my go to. The bigger thing I realised to was this, if this is what it's doing on the outside, imagine what's going on in my body!!!

GALLSTONES

PROTOCOL

CLEAN SLATE + ZERO-IN

I have been struggling with pain at my upper right abdomen for so many years.

Last year i did magnetic x-Ray and I was diagnosed with Gallstones 🤔

Gallstones are hardening deposits of digestive fluid that can form in your gallbladder.

Gallbladder is a small pear shaped organ on the right side of your abdomen just beneath your liver. It is very painful and crampy.

I was to go for an operation but with the problem of COVID-19, I have to wait.

I sign up in April with this Amazing company which i knew it is the will of God to wait for the company to open so i can testify.

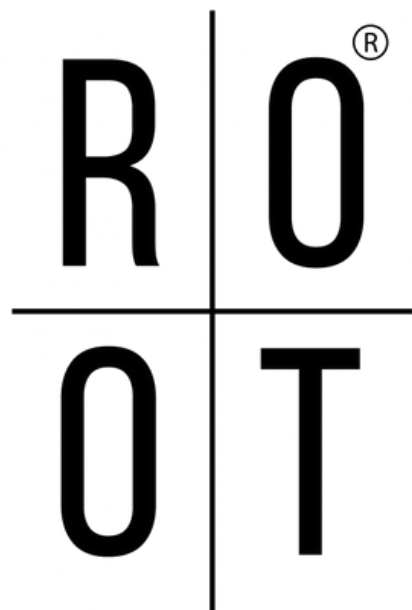

I ordered my products and I started taking 5 drops of clean slate in the morning and 5 drops at night and one capsule of zero in a day. And after 3 days i started feeling some changes in my body, i slept well, some pains i use to have all gone.

So the big testimony is that

I went again for the X-Ray and the doctor couldn't find the stones in my gallblader.

So the products are absolutely amazing, they are really working

I am freeeeeeeeeeee

DEMENTIA

PROTOCOL

Clean Slate & Zero-In for 4 months

“This is my 79 year old husband David, he started on Clean Slate late March, at that time he walked with a shuffle, as he had no confidence in his balance. Today, July 3rd, this is him on our deck. He had given up playing the trumpet and he only felt comfortable speaking with close friends as he could no longer find words and it was difficult to understand him. His speech is still slow but he improves and he is back practicing the trumpet, painting and doing his research. I cannot express my joy in watching my husband regain his ability to enjoy life”.
